

Disability Management and Rehabilitation Committee
April 6, 2005
Submitted by Linda Gomez

The Disability Management Rehabilitation Committee is made up of me, Sally Glock, Noella Desaulniers and usually the head of Human Resources. We meet on a monthly basis to discuss claims and how we may be of assistance to those on disability under the new plan. In general, Selkirk College faculty has very few claims even when compared to other colleges and when controlling for size variables. The group works very well together and we have an informal nature to our meetings. There are generally two meetings at the FPSE offices in Vancouver per year, but this year, the 2004 fall meeting was cancelled and due to the lateness of scheduling the spring meeting, neither Linda nor Sally were able to attend.

If you require further information, please let us know.
