

Status of Non-regular Faculty Committee

Report submitted by Joe Hobart

April 2005

After taking this position in February, I went to Vancouver for the NRFC meeting. In my report, I discussed our non-regular faculty situation at SC. It appears that we have approximately 25% non-regular faculty. It is rather clear that our collective agreement is among the best in the province. Emily Carr, for example, has ~70% non-regular faculty.

There were also discussions about the upcoming AGM. In an effort to speed up the mind-numbingly boring debate about the topic, I suggested a topic (which I cannot even remember) and it was instantly accepted and I was asked to sit on the organizational committee. I will remember to keep quiet in the future. As for all of the other issues of discussion, they were tabled.
